John Muir was a Scottish-American naturalist, author, and environmental philosopher known for his exploration of the American West. He was a passionate advocate for the preservation of wilderness and helped establish several national parks, including Yosemite and Sequoia.

Muir was born in Scotland in 1838. He emigrated to the United States in 1849 and settled in Wisconsin. In 1868, he made his first trip to the Yosemite Valley, and he was immediately captivated by the beauty of the wilderness. He spent the rest of his life exploring the American West, and he wrote extensively about his experiences.

Muir's writings helped to inspire the creation of the National Park System. In 1890, he helped to establish Yosemite National Park, and in 1892, he helped to establish Sequoia National Park. He also played a key role in the establishment of Kings Canyon National Park and Grand Canyon National Park.

Muir was a tireless advocate for the preservation of wilderness. He believed that wilderness was essential for the health of both the human spirit and the environment. He wrote, "The mountains are calling and I must go." He also said, "Everybody needs beauty as well as bread, places to play in and pray in, where nature may heal and give strength to body and soul."

Muir's legacy is immense. He is considered one of the most important figures in the history of the American conservation movement. His writings continue to inspire people around the world to appreciate and protect the wilderness.
